Dear Parents,

**Date: 17th December, 2021**

Greetings from Amanora School!

This is to inform you that on 12<sup>th</sup> December 2021 we were notified by one of our senior students that he along with his parents has tested positive for Covid 19. While we will not be able to share with you further details of this case in order to maintain the confidentiality of the medical information but let me share with you that our team is in constant touch with him and the family is recovering swiftly.

The intention behind writing this letter to you is not to stir anxiety but to inform you and assure you that we are convinced that since all the covid appropriate protocols were strictly being adhered to by staff and students like wearing masks and social distancing there is minimal risk involved.

Nevertheless as soon as the information came to our notice our Emergency Covid Reaction Team (ECRT) swung into action and following comprehensive steps have been taken.

- Physical classes suspended with immediate effect.
- Deep sanitization and Fogging planned and completed on 13-12-2021 on priority by a professional agency.
- Entry to the classrooms barred for 48 hrs in order to minimize contamination.
- School premises to be kept closed till 48 hours after fogging and sanitization and notice placed on the school gate.
- Admin office to resume work on campus after deep cleaning on 16<sup>th</sup> December 2021.
- Daily health updates of the concerned family and students and staff who might have come close contact are being monitored.

While the school shall take all Covid related precautions necessary to avert any situation of concern in future we earnestly implore the parents and students to ensure all the restrains to curb the transmission of virus are exercised at home very specially in the light of the resumption of on campus classes. Restricted interactions, prescribed good quality masks, frequent usage of sanitizers and very importantly social distancing to be followed and monitored by parents in all the social environment of the students. It is imperative that all the adult members of the students' families have taken both the doses of the vaccination. Failing this caveat, it is appealed that the child should refrain from attending the physical classes.

Please find below the link to share with our ECRT your updated vaccination status. Kindly take the survey and help us to be better informed and thus better prepared for your ward's safety.

<https://forms.gle/ihMYREMkx97cSBBv7>

School shall resume the hybrid classes for grades VIII to XI from Monday, 3<sup>rd</sup> January 2022 onwards. However, the discretion of sending the student on campus lies completely with the parent.

We are thankful for your patience and support as we at Amanora School strive to promote the safety and well-being of all our students.

Best regards,

For Amanora School
