Dear Parent,

Student safety and comfort during travel remains one of our highest priorities. Considering the increasing traffic conditions and safety concerns during daily commute, we strongly encourage parents to opt for the School Transport Facility wherever possible, as it provides a structured, safe and supervised travel environment for students.

**All school buses are equipped with comprehensive safety measures, including:**

- Dedicated and trained lady attendant in every bus
- CCTV camera monitoring
- GPS tracking system
- Speed governors as per norms
- First aid kit and fire extinguisher
- All RTO mandatory compliance and safety documentation

We are pleased to inform you that **there is NO transport fee hike for Academic Year 2026-27**, and the existing fee structure has been retained to support parents while continuing to maintain high safety and operational standards.

To help us plan routes efficiently and ensure proper allocation, parents who wish to avail the school transport facility must fill the Transport Request Google Form on or before **Saturday, 28th February 2026**. Timely submission of information is extremely important for route planning, seat allocation and smooth transport operations from the beginning of the academic year.

Please note:

- Transport requests will be processed on a **first-come, first-serve basis**, subject to seat availability.
- In the absence of a submitted transport request form, the school will assume that alternate travel arrangements are being made by parents.
